December 22, 2017

Dear FT Cares Team,

I want to sincerely thank you for your generous donation to the UNIDOS Disaster Relief & Recovery Program at the Hispanic Federation. My family and I have a vision of a strong, productive, empowered, and economically-sound Puerto Rico -- one where its residents have every opportunity to achieve the best for themselves, their communities, and for our nation. Your charitable donation allows the Hispanic Federation to address the immediate needs of these Americans who have survived 93 days in horrific conditions.

We are also looking ahead by helping community-based organizations support long-term needs. The Hispanic Federation's Amanece Fund has already begun to fund reforestation, sustainable agriculture/farms, solar power systems, and water filtration systems for schools and homes. This is all done with an eye towards creating a clean, sustainable power infrastructure, and housing engineered to withstand the worst that climate change might bring.

In short: the Mirandas and the Hispanic Federation are in this for the long haul. By supporting our ongoing efforts, you are sending a powerful message to the people of Puerto Rico that they have not be forgotten in their time of need.

Siempre,

Lin-Manuel Miranda
